The resignations of enough of the disqualified members are to be received, to secure the election of others, who, with the members already qualified, shall make a quorum of the Legislature. This very properly excludes the idea, either that seats shall be given to the unauccassful competitors of these disqualified members, or that all proceedings shall be suspended until after December. The effect of this proposition will be to reconcile all differences among the real friends of the Administration, to rally to the support of Governor Walker whose sound Republicanism has come to be generally conceded—a working majority of the people as well as of the Legislature of Virginia, and to baffle completely the disorganizing schemes of the rebei reactionary politicians.
